

earth Art.

Visual Arts

Term 2- 2017

This term our major focus is on the elements of shape and form in natural aspects of our planet. The students will be celebrating planet Earth in their creations by extending and enriching their work using an understanding of shape and form of flora and fauna found on our uniquely habitable planet sustained by water.

Included amongst the areas of focus are geometric and organic shapes, shape and form in the landscapes around us, shape and pattern, negative and positive shapes, and shape as a tool for drawing to create an impression of movement.

Shape and Form in Art (Glossary)

Pattern - repeated shapes

Positive Shapes - subject area shapes in a work of art

Relief Sculpture - a sculpture that comes forward from a flat surface, as opposed to being freestanding

Scale - relative size

Sculpture - three-dimensional artwork

Shape - the element of art that is a distinct space, having length and width
