"A line is a Dot that went for a walk.” Paul Klee

This term our major focus is on the element of line.

Line is one of the most important elements of art.

Creating a painting or design relies on drawing lines to divide the paper, canvas or fabric into shapes and forms. Line plays an enormous part in the creative process.

Line-

- can communicate an idea or express a feeling
- can appear static or active
- define objects
- is the mark left by a tool, brush, pencil, pen etc
- defines the position and direction of a design or image
- may be curved, straight, thick, thin, smooth, long, short

We will also be looking at the focus theme of Celebrations in Australia. In our look at the Festive Season it may become apparent that although some of the imagery used is uniquely Australian, we do not have one way of celebrating Christmas. Given that many national groups now call Australia home, they have brought with them rituals and customs of other lands thus adding to the colour of our celebrations.
